Quality Music and Entertainment

BACK GROUND MUSIC FOR YOUR WEDDING RECEPTION

Music for the wedding reception and wedding breakfast is almost always background music. The main focus of attention, of course, is the bride and groom. The wedding music enhances the aura of happiness around the couple. It engenders a sense of relaxed togetherness and encourages chatter, rather than detracting from it and it is very subtle.

MUSIC FOR YOUR DRINKS RECEPTION

Live music during your drinks reception can greatly enhance your day, relaxing and entertaining your guests, adding to the atmosphere of celebration, creating an impression and adding a little bit more of yourselves. It's a good opportunity for you, the bride and groom, to choose a style that reflects your own taste in music or your parents or maybe some of your guests or to add to the theme and ambience of your wedding.

POPULAR RECEPTION MUSIC CHOICES

- * **Classical Music played by a pianist, guitar or classical string or wind group**
- * **Popular Swing and Latin Jazz played by a pianist, a jazz trio or small jazz band.**

If your wedding has an implied theme - possibly your other half is from a different country or culture or the venue implies a theme, this could be the opportunity to bring this out. There are many small groups and solo musicians playing in many world music styles such as Latin American, Caribbean, French, Italian, Spanish, Indian etc, who can add that extra flavour. Sometimes these styles can be combined - Latin Jazz or say Spanish Rhumba Flamenco Gipsy Kings Style or a Period jazz group to reflect the venue.

DINNER OR WEDDING BREAKFAST

Live music can also create the perfect atmosphere for the wedding breakfast, and keeps your guests entertained between courses. A continuation of the style of music selected for the drinks reception works well. Your music and entertainment provider will be happy to discuss options in the context of your taste and ideas and of course within your budget.

No matter what your music choices, Prima Artists will always ensure that the finest musicians are booked for your ceremony who will liaise with you and play the music which will make your day unique and memorable. Please click for classical ensembles or music from around the world or jazz bands. Please contact us for further advice or options.
